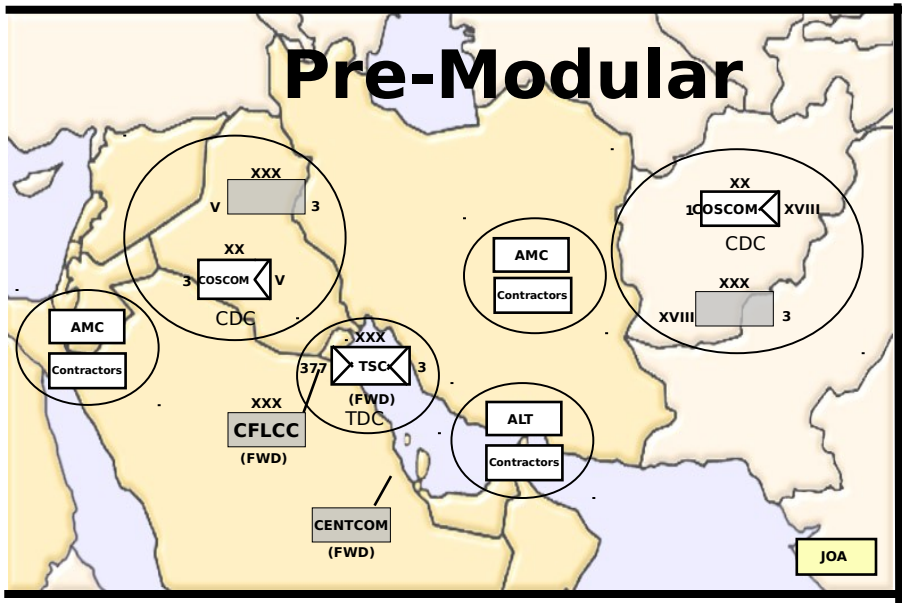
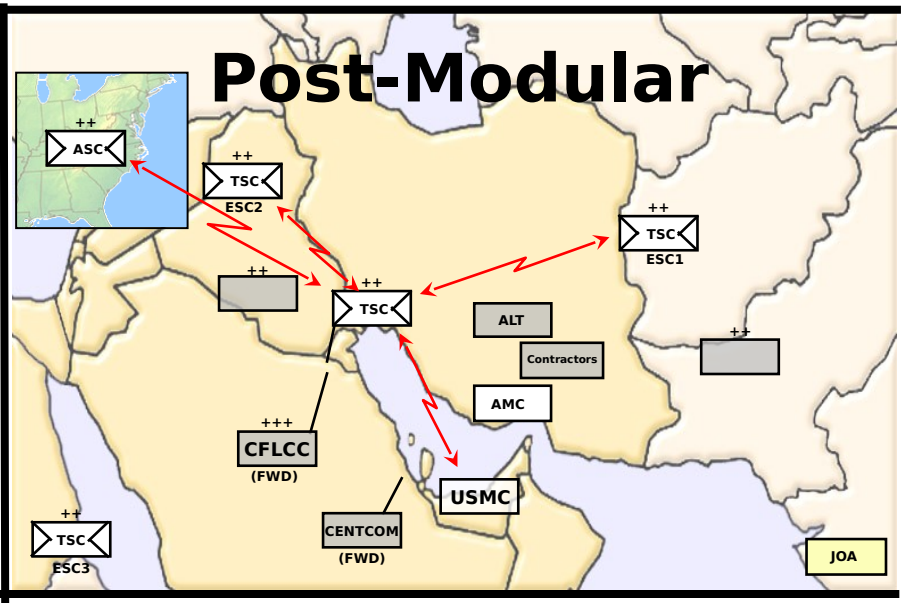
Army Sustainment Command

AUSA Log Symposium
Army Sustainment Command Panel
17 May 2006

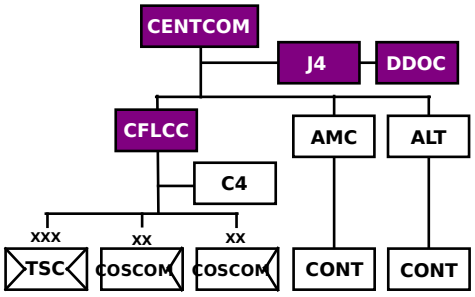
Lieutenant General Ann E. Dunwo
Deputy Chief of Staff, G-4
Headquarters, Department of the

New Joint Capable Concept of Support





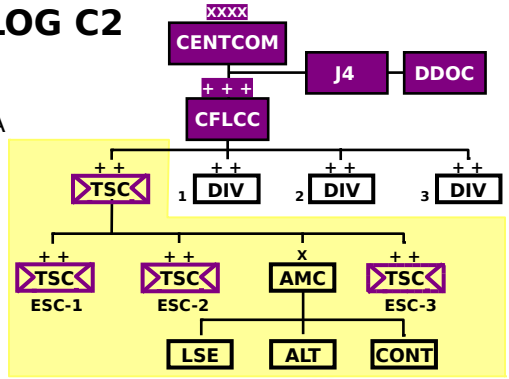
LOG C2



- Fragmented CSS
- No single log C2 in the JOA
- No single E2E distribution manager
- Inter and intra-theater log layered
- Inability for TSC to operate in multiple AORs or JOAs
- Limited log connectivity

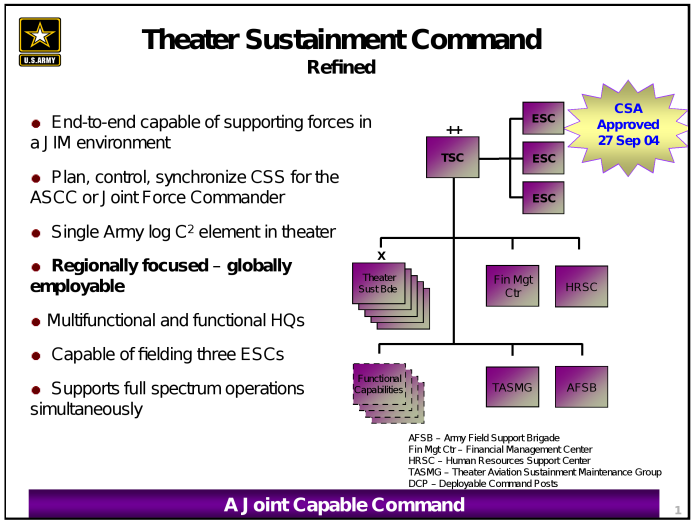
LOG C2

- Single Army log C2 in the JOA
- Single distribution manager
- Leveraging Joint partners
- Ability to operate in multiple AORs or JOAs
- Assured communications



Strategic **Operational** **Tactical**

Key Decisions Affecting the ASC



Theater Sustainment Command
Refined
End-to-end capable of supporting forces in a JIM environment
Plan, control, synchronize CSS for the ASCC or Joint Force Commander
Single Army log C² element in theater
Regionally focused – globally employable
Multifunctional and functional HQs
Capable of fielding three ESCs
Supports full spectrum operations simultaneously
CSA Approved 27 Sep 04

- VCSA approved Army Sustainment Command assigned to AMC 7 Jun 05
- ARSTRUC – ASC Standup date 16 Oct 06

Short Flash to Bang Time

Army Sustainment Command is Born

ASC

- Integrates logistics with joint and strategic partners in the national sustainment base
- Coordinates and establishes end to end distribution pipeline to deployed TSCs with USTC and others
- Assists FORSCOM and JFCOM rapid projection of forces to RCC and return (ARFORGEN)
- Provides C2 and training readiness oversight of assigned forces
- Provides oversight of regeneration of redeploying equipment and reset
- Provides backup support for homeland defense and military assistance to
